Learning - how to live - together

Village Montessori School makes every effort to promote diversity within its student body and staff and as a value in its curriculum; therefore, we do not discriminate against anyone on the basis of race, color, gender, age, or national origin in administration of its educational policies, admissions policies, and other school-administered programs.

VMS offers toddler, primary, and elementary level Montessori programs. While it is presumed that all children will advance from one program to the next, entrance into each new program requires either an evaluation for readiness or a recommendation from the student's teacher.

Primary class candidates are applying for an educational program wherein the final year is the child's kindergarten year. All applicants are expected to complete the Montessori primary program, as this is a crucial part of the child's culmination of learning in this curriculum. A multi-age classroom community thrives when older children share their wisdom with younger students. The mentorship aspect of the environment provides the older child opportunities for growth, both intellectually and socially, not present in a single-aged setting. Please note: Acceptance of siblings of children whose parents elect to not complete the program is at the discretion of the administration.

We, at VMS, believe learning is a cooperative effort undertaken by the school and the parents. Therefore, we depend on parents to be involved in order to maintain our higher standards. Parent education nights are offered by our staff several times a year to facilitate better understanding of Montessori education. These dates will be post on the school calendar at the beginning of the year in order to facilitate your attendance at these opportunities as early as possible. **Attendance by at least one parent is required.**

We welcome your comments or questions regarding the application process, and VMS celebrates your commitment to education with you and your child.
